## Supplemental Digital Appendix 3

Survey tool administered electronically (Qualtrics, Provo, Utah) to leaders, faculty, and staff who participated a Od

virtual reality racism workshop at Zucker School of Medicine at Hofstra/Northwell, Hempstead, New York, October 2019
Virtual Reality
Was this your first time participating in a diversity workshop (e.g. implicit bias, microaggressions, cultural humility, etc.)?
○ No
O Not Sure
Was this your first experience with Virtual Reality (VR) ?
○ Yes
○ No
O Not Sure
How completely were <i>all</i> of your senses engaged in the VR session?
Not at all
A moderate amount
○ A lot
Almost completely
During the VR session, how aware were you of events occurring outside in the real world?  Very aware
Somewhat aware
○ Neutral
Somewhat unaware
O Very unaware
This VR session is an effective tool for understanding the experiences of other people.
