

The Autoimmunity Screening for Kids (ASK) Study

Screening for
type 1 diabetes &
celiac disease

Only 10%
have a
family
history

Autoimmunity Screening for Kids

A SIMPLE TEST TO DETECT
Childhood Diabetes
+ Celiac Disease

2.4% screened have
undiagnosed celiac
disease
autoimmunity

Only 30%
have
symptoms

Created by TUXX
from Noun Project

-High prevalence of
undiagnosed autoimmunity
in Colorado
-Most identified would not
have been caught by
current screening practices
