

Fig. S4: Normalised peak airway pressure and slope of change from Fig. 1 A. A - B: Data are normalised for the same relative start. Time point 0 min corresponds to the maximum slope of change in  $p_{plat}$ . Data are shown as mean  $\pm$ SD from group A: 27 cmH<sub>2</sub>O (p27); n = 5 and B: 30 cmH<sub>2</sub>O (p30); n = 6. C - D: Slope of change from A-B. Data are shown as mean of 1<sup>st</sup> derivative C: from A and D: from B. Time point 0 min corresponds to the maximum slope of change in  $p_{plat}$ .
