The reviewer's comments are constructive: The review provided helpful suggestions as to how the research or its presentation could be improved.	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Submission procedures: The process was straightforward and easy to use.	<input type="text"/>			
Turnaround time for review: The time from submission to decision was reasonable.	<input type="text"/>			
Support from journal staff: Journal staff was courteous and helpful.	<input type="text"/>			
Overall Satisfaction: Overall the review process met expectations.	<input type="text"/>			
Willingness to resubmit: Based on the reviews of my manuscript, I would be more or less interested in submitting again to <i>Obstetrics & Gynecology</i> .	<input type="text"/>			

Respondents indicated ratings from pull-down menus. For the first six questions regarding editorial comments from reviewers, and the following three questions regarding review processes, menus provided a Likert Scale from 1 (Not True) to 5 (True). The response options for the final two questions were Yes or No.
