

Supplementary Figure 1. Heat plot of annual susceptibility for selected antimicrobials, by site, for a) *Pseudomonas aeruginosa* and b) *Escherichia coli*. Vertical lines indicate approximate time of introduction of antimicrobial stewardship program.

a) Heat plot of annual susceptibility by site for *Pseudomonas aeruginosa*

b) Heat plot of annual susceptibility by site for *Escherichia coli*.

CTX, ceftriaxone; Ceftaz, ceftazidime; CIP, ciprofloxacin; Gent, gentamicin; Mero, meropenem; Tobr, tobramycin.
