# Short Form of the Informant Questionnaire on Cognitive Decline in the Elderly (Short IQCODE) 

by A. F. Jorm<br>Centre for Mental Health Research<br>The Australian National University Canberra, Australia

There is no copyright on the Short IQCODE. However, the author appreciates being kept informed of research projects which make use of it.

Note: As used in published studies, the IQCODE was preceded by questions to the informant on the subject's sociodemographic characteristics and physical health.

Now we want you to remember what your friend or relative was like 10 years ago and to compare it with what he/she is like now. 10 years ago was in $19 \ldots$. Below are situations where this person has to use his/her memory or intelligence and we want you to indicate whether this has improved, stayed the same or got worse in that situation over the past 10 years. Note the importance of comparing his/her present performance with 10 years ago. So if 10 years ago this person always forgot where he/she had left things, and he/she still does, then this would be considered "Hasn't changed much". Please indicate the changes you have observed by circling the appropriate answer.

Compared with 10 years ago how is this person at:

|  | 1 | 2 | 3 | 4 | 5 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 1. Remembering things about <br> family and friends e.g. <br> occupations, birthdays, <br> addresses | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 2. Remembering things that <br> have happened recently | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 3. Recalling conversations a <br> few days later | Much <br> improved | A bit <br> improved | Not much <br> change | A bit | worse | | Much |
| :--- |
| worse |

| 9. Learning to use a new <br> gadget or machine around the <br> house | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 10. Learning new things in <br> general | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 11. Following a story in a book <br> or on TV | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 12. Making decisions on <br> everyday matters | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 13. Handling money for <br> shopping | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 14. Handling financial matters <br> e.g. the pension, dealing with <br> the bank | Much <br> improved | A bit <br> improved | Not much <br> change | A bit <br> worse | Much <br> worse |
| 15. Handling other everyday <br> arithmetic problems e.g. <br> knowing how much food to <br> buy, knowing how long <br> between visits from family or <br> friends | improved | A bit | Not much <br> improved | A bit | worse |
