Dr. Zhang's comments on draft mortality rate table from McLaren/Hart

May I have more accurate number? (question from McLaren/Hart)

各种癌症死亡率及距铁合金厂的距离

村庄	金厂堡	女儿河	杨兴	十里台	温家屯
距铁合金厂之距离	1.4km	1.5km	3.0km	3.5km	5km
1965年水井平均含镉浓度	0.031 mg/L	2.55 mg/L	0.177 mg/L	0.023 mg/L	0.005 mg/L
癌症死亡率	82.62	71.89	76.80	92.96	91.12
胃癌死亡率	36.71	0	36.50	55.17	27.68
肺癌死亡率	13.17	14.99	24.39		20.76

All cancer
Stomach cancer
Lung cancer

可不可以有精确一些的数据

已不纯再精制!

死亡回顾调查

death mortality retrospective survey

CANNOT be more accurate!

第一届环境科学会议

Abstracts of First Environmental Sciences Conference

经过过去资料核对, 女儿河胃癌死亡率数字在 28.00/100,000 可供参考。(很难认为绝对准确。)

According to the results from checking on past/archived data, stomach cancer mortality was 28.00/100,000. This number can/could be used as reference. [It is very hard to consider this number as absolutely correct.]
