

Supplementary Figure 3.

FCGR3A-Sanger sequencing electropherograms for trio samples: (A)NA12750 (father, TT), (B)NA12751 (mother, TG) and (C)NA12740 (child, GG). NA12750 and NA12740 have only one copy of *FCGR3A*. The true genotype of NA12750 is likely to be *FCGR3A* "T-", with NA12740 having inherited *FCGR3A* "G" from NA12751 and *FCGR3A* "-" from NA12750. Arrows show the position of rs396991.
