

Supplemental digital content 2 - Annual incidences of Kawasaki disease per 100.000 children less than 5 years of age in different countries worldwide

Country	Incidence	Data source	Year of data collection [no. years]	Ref.*
Australia				
Australia	3.7	National surveillance system: Australian Paediatric Surveillance unit (www.inopsu.com)	1993-1995 [2]	(1)
New Zealand	8.0	National surveillance system: New Zealand Paediatric Surveillance unit (www.inopsu.com)	2001-2003 [2]	(2)
Europe				
Denmark	3.6	Retrospective review of national hospital discharge register	1981-2005 [15]	(3)
Norway	5.4	Review of hospital discharge registries	1998-2009 [10]	(4)
<i>The Netherlands</i>	5.8	<i>National surveillance system: Dutch Pediatric Surveillance Unit</i>	2008-2013 [5]	-
Sweden	7.4	Hospital discharge records	1998-2009 [10]	(4)
England	8.4	Hospital admission data	1998-2003 [5]	(5)
France (Northern part)	9.0	Prospective cohort study in pediatric departments of 18 hospitals in Northern France	2005-2006 [1]	(6)
Iceland	10.7	National report system	1996-2006 [10]	(7)
Finland	11.4	Review of hospital discharge registries	1998-2009 [10]	(4)
Ireland	15.2	Review of hospital discharge registries	1996-2001 [5]	(8)
Italy (Northeastern area)	15.4	Retrospective review of medical records of all children admitted to the regional hospitals	1981-1983 [2]	(9)
Middle East				
Israel	6.4	Retrospective review of discharge data (Israel National Hospital Discharge Register)	1996-2011 [14]	(10)

South America

Chile	6.8	Retrospective review of national hospital discharge databases	2001-2007 [5]	(11)
-------	-----	---	---------------	------

North America

Jamaica	2.7	Retrospective review of hospital discharge records of major referral centers island wide	1986-1998 [12]	(12)
Canada (Ontario)	26.2	Triennial surveillance: retrospective review of hospital discharge records and contact of pediatric cardiologists	1995-2007 [12]	(13)
Hawaii	50.4	Retrospective review of hospital discharge records	1996-2007 [10]	(14)

Asia

Thailand	2.7	Review of registry from major cardiac referral centres (National Registry of Thai Children)	1998-2002	(15)
China				
Jilin Province	5.0	Survey in the 32 provincial hospitals	1999-2009 [10]	(16)
Sichuan	7.1	Survey in 212 provincial hospitals	1997-2002 [5]	(17)
Hong Kong	39.0	Prospective surveillance (1997-2000)	1997-2000 [3]	(18)
Shanghai	46.3	Survey in 50 hospitals providing pediatric care	2003-2008 [5]	(19)
Beijing	49.4	Survey and review of records in 45 hospitals with pediatric departments in Beijing and its suburbs	2000-2005 [5]	(20)
Taiwan	69.0	National health insurance database	2003-2007 [4]	(21)
Korea	113.1	Retrospective survey in 101 general hospitals	2006-2009 [3]	(22)
Japan	222.9	21 st nationwide survey	2009-2011 [2]	(23)

* When more than one study has been published from a single country, the latest study was reported.
