

Table 1: Demographics of the Study Population (n=245)

Variable	Subcategory	# (%)¹
Total		245 (100)
Participant Demographics	Age (years)	
	<25	25 (10%)
	26-35	146 (60%)
	36-45	45 (18%)
	46-65	29 (12%)
	Female	191 (78%)
Family Demographics	Currently pregnant	8/208 (4%)
	Live with children in the home	91 (38%)
Position	Physician/Physician extender	114 (47%)
	Attending	34 (14%)
	Fellow	24 (10%)
	Resident	48 (20%)
	NP/PA	8 (3%)
	Nurse	110 (45%)
	Respiratory therapist	7 (3%)
	Other ²	14 (6%)
Work Unit	ICU	97 (40%)
	ED	90 (37%)
	General floor ³	35 (14%)
	Other ⁴	23 (9%)
Years at Hospital	<2	107 (44%)
	2-<5	60 (24%)
	5-<10	32 (13%)
	10-<20	35 (14%)
	≥ 20	11 (4%)

ED: emergency department; ICU: intensive care unit; NP: nurse practitioner; PA: physician assistant

1: Missing data: pregnancy (37), live with children in the home (3). Percentages may not sum to 100% due to rounding.

2: includes medical students (6), clerks (2), and pharmacists or occupational therapists (6)

3: this group was comprised of float nurses and pediatrics residents

4: includes outpatient clinics
