

**Figure:** The vaccine efficacy and its waning, for schedules with a booster (right panel) and without a booster dose (left panel). Left panel: model for 3+0 schedules. Left panel: 2+1 or 3+1 schedules. The plain dark regression line shows the model median, the grey shaded area the 95% credible interval (CrI) and the dotted lines the upper and lower bounds of the 95%CrI. The circles represent the point estimates of each individual study, with the size of the circle proportional to the study size, and the dotted vertical lines show the 95% confidence interval.
