

TABLE E-1 Grading Scale for Radiolucency About Pegged Glenoid Components⁵

Grade	
0	No radiolucency
1	Incomplete radiolucency about one or two pegs
2	Complete radiolucency (≤ 2 mm wide) about one peg only, with or without incomplete radiolucency around one other peg
3	Complete radiolucency (≤ 2 mm wide) about two or more pegs
4	Complete radiolucency (> 2 mm wide) about two or more pegs
5	Gross loosening

TABLE E-2 Grading Scale for Completeness of Glenoid Component Seating⁵

Grade	
A	Complete component seating
B	$< 25\%$ incomplete contact on a single radiograph
C	$25\% - 50\%$ incomplete contact on a single radiograph
D	$< 50\%$ incomplete contact on both radiographs
E	$> 50\%$ incomplete contact on a single radiograph
