

TABLE E-1 Revision Procedures Performed

Case	Time to Revision (<i>no. of years after index procedure</i>)	Procedure Performed	Reason for Revision
1*			
	0.2	Carpal component revision	Wrist instability
	2.2	Wrist arthrodesis	Wrist instability
2	9.3	Wrist arthrodesis	Carpal component loosening
3	8.3	Carpal component extraction, allograft interposition, radial component revision	Carpal component loosening
4	3.1	Carpal component revision	Carpal component loosening
5			
	2.7 (R)	Carpal component revision	Carpal component loosening
	8.0 (R)	Carpal component extraction, allograft interposition	Carpal component loosening
	5.3 (L)	Wrist arthrodesis	Carpal component loosening
6	3.5	Wrist arthrodesis	Carpal component loosening
7	4.2	Carpal component extraction, allograft interposition	Carpal component loosening
8	6.8	Carpal component extraction, allograft interposition	Carpal component loosening
9	6.2	Carpal component extraction, allograft interposition, radial component revision	Carpal component loosening

*Patient died before five years of follow-up.
