

Fig. E-1

Number of orthopaedic surgeons by city/town (N = 615). The density of orthopaedic surgeons in the state is shown. The inset shows a close-up of the Boston urban area.

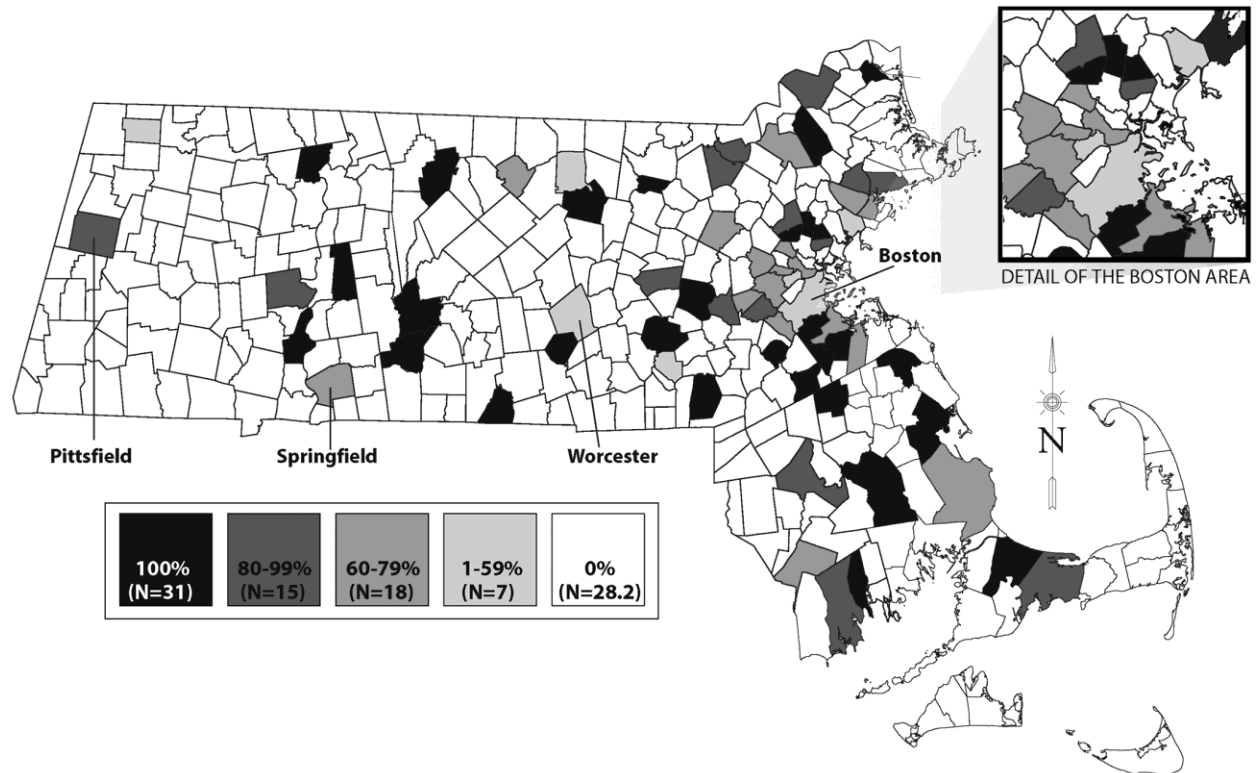

Fig. E-2

Percentage of top-tier surgeons in any health plan by city/town. Darker areas represent areas where a higher percentage of surgeons were rated as top-tier by any health plan. The inset shows a close-up of the Boston urban area.
