*HEDIS = Healthcare Effectiveness Data and Information Set, NCQA = National Committee on Quality Assurance, OMW = osteoporosis management in women who had a fracture, HMO = health maintenance organization, and PPO = preferred provider organization. Reproduced, with modification, from: Tosi LL, Gliklich R, Kannan K, Koval KJ. The American Orthopaedic Association's "Own the Bone" initiative to prevent secondary fractures. J Bone Joint Surg Am. 2008 Jan;90(1):163-73. †The State of Healthcare Quality, 2015: PQRS measure 418 requires the reporting of women and men 50 to 85 years of age who suffered a fracture who either had a BMD test or osteoporosis therapy. The 2012 mean was $14\%^{22}$, the 2013 mean was missing ²³, the 2014 mean was $40\%^{24}$, and the results for 2015 were not available ²⁵.
