

**Figure e-1 Nerve ultrasound and spinal MRI findings**

(A) Nerve ultrasound finding: cross sectional area (CSA) of the right median nerve (upper arrow) with marked enlargement (traced area) at the level of the right distal arm. Lower arrow: brachial artery.

(B) Spinal MRI: sagittal and axial sections (white line) of post contrast MRI T1 sequences disclosing gadolinium enhancement of meninges and roots at level to cauda equina.
