

Supplementary material

GBM community attachment scale

How much do you feel part of a gay/bisexual community?	Not at all	A little bit	Somewhat	Quite a bit	Completely
How many of your friends are gay/bisexual?	None of them	Some	About half of them	Almost all	All of them
How much of your free time do you spend with gay or bisexual men?	None of it	Some	About half of it	Almost all	All of it
How much of your time do you spend giving back to the gay/bisexual community? (e.g. volunteering, advocacy, passing on health information to others)	None of it	Some	About half of it	Almost all	All of it

Sexual identity centrality scale

To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree
My sexual orientation is a central part of my identity					
My sexual orientation is an insignificant part of who I am					
Being gay/bisexual is a very important aspect of my life					
To understand who I am as a person you have to know that I'm gay/bisexual					

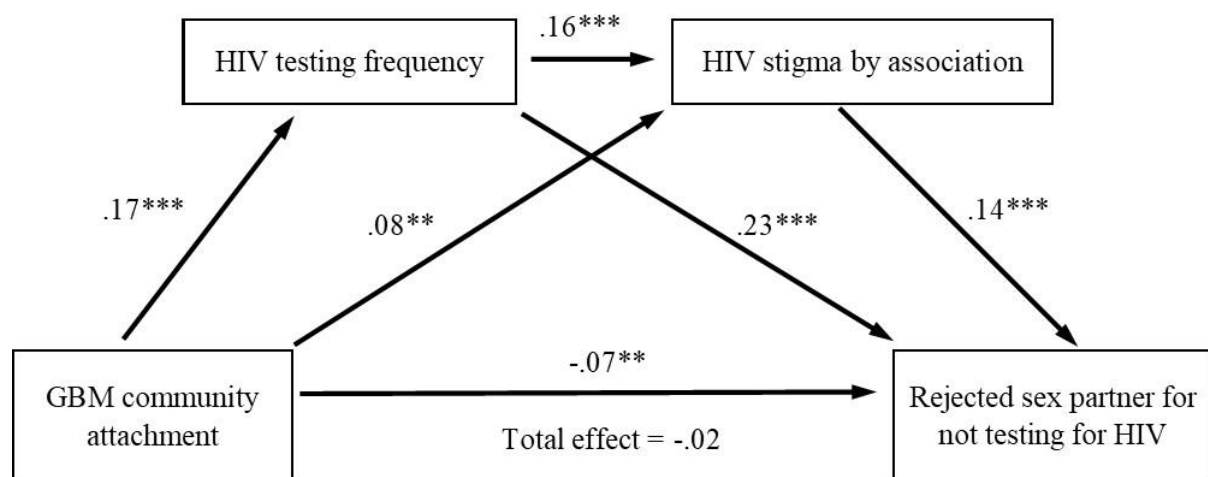

Figure 3. Standardised regression coefficients for the relationship between GBM community attachment and rejecting sex partners for not testing for HIV, mediated by HIV testing frequency and HIV stigma by association (controlling for sexual identity stigma)

$**p < .01$; $***p < .001$
