

SDC, Table: Demographic of study group compared to patients with a failed kidney transplant excluded from analysis

Variable	Study group (n=119)
Age at failure	42 ± 13
Female	42%
African American	37%
Median graft survival (mos)	85 (3 to 336)
Living donor transplant	28%
HLA mismatch from transplant	3.6 ± 1.6
KP transplant	18%
Relisted for transplantation	80%
Median PRA I pretransplant	0% (0 to 15)
Median PRA II pretransplant	0% (0 to 15)
Median Late PRA I	57% (0 to 100)
Median Late PRA II	63% (0 to 100)
Weaned IM* prior to late PRA testing	80%
Nephrectomy prior to late PRA testing	33%

*IM=immunosuppression
