
Appendix 3. Alzheimer's Disease Metabolomics Consortium Coinvestigators

| Name | Location | Role | Contribution |
|----------------------------------------|--------------------------------------------------------|----------------------------------------------|------------------------------------------------------|
| Alexandra Kueider-Paisley, PhD | Duke University Medical Center | Scientific management | Coordinated communication |
| Colette Blach, MS | Duke University Medical Center | Database management | Data storage and organization |
| Arthur Moseley, PhD | Duke University Medical Center | Duke Proteomics and Metabolomics Core PI | Led and coordinated Proteomics and Metabolomics Core |
| J. Will Thompson, PhD | Duke University Medical Center | Duke Proteomics and Metabolomics Core Leader | Led and coordinated Proteomics and Metabolomics Core |
| Siamak Mahmoudiandehkhordi, PhD | Duke University Medical Center | Bioinformatics | Performed biostatistical review of data |
| Kathleen Welsh-Balmer, PhD | Duke University Medical Center | AD Clinician | Data Collection |
| Brenda Plassman, PhD | Duke University Medical Center | AD Clinician | Data Collection |
| Gabi Kastenmüller, PhD | Helmholtz Zentrum München | Bioinformatics | Intellectual contribution to ADMC |
| Xianlin Han, PhD | University of Texas, Health Science Center San Antonio | Lipid expert/metabolomics | Intellectual contribution to ADMC |
| Peter Meikle, PhD | Bake Heart and Diabetes Institute | Lipids expert, metabolomics | Intellectual contribution to ADMC; data processing |
| Sarkis Mazmanian, PhD | California Institute of Technology | Gut microbiome expert | Intellectual contribution to ADMC |
| Mitchel Kling, MD | University of Pennsylvania | AD clinician | Data collection |

| | | | |
|---------------------------------|--------------------------------------------------|---------------------------------|-----------------------------------|
| Jon Toledo, PhD | University of Pennsylvania | Bioinformatics | Intellectual contribution to ADMC |
| Cornelia van Duijin, PhD | Oxford University | AD expert | Intellectual contribution to ADMC |
| Shahzad Ahmad, PhD | Erasmus MC | Bioinformatics | Intellectual contribution to ADMC |
| Thomas Hankemier, PhD | Leiden University Metabolomics Center | Metabolomics | Intellectual contribution to ADMC |
| Ines Thiele, PhD | National University of Ireland – Galway | Gut microbiome | Intellectual contribution to ADMC |
| Almut Heinken, PhD | National University of Ireland – Galway | Gut microbiome | Intellectual contribution to ADMC |
| Nathan Price, PhD | Institute for Systems Biology | Systems biology | Intellectual contribution to ADMC |
| Cory Funk, PhD | Institute for Systems Biology | Systems biology | Intellectual contribution to ADMC |
| Priyanka Baloni, PhD | Institute for Systems Biology | Systems biology, bioinformatics | Intellectual contribution to ADMC |
| Wei Jia, PhD | University of Hawaii Cancer Center | Metabolomics | Intellectual contribution to ADMC |
| David Wishart, PhD | The Metabolomics Innovation Centre Canada (TMIC) | Metabolomics | Intellectual contribution to ADMC |
| Roberta Brinton, PhD | University of Arizona | Sex differences in AD | Intellectual contribution to ADMC |
| Rui Chang, PhD | University of Arizona | Bioinformatics | Intellectual contribution to ADMC |
| Lindsay Farrer, PhD | Boston University | AD genetics | Intellectual contribution to ADMC |

| | | | |
|-----------------------------|-----------------------------------------|-------------------------------------|-----------------------------------|
| Rhoda Au, PhD | Boston University | AD brain aging | Intellectual contribution to ADMC |
| Peter Würtz, PhD | Nightingale Health | Metabolomics center | Intellectual contribution to ADMC |
| Lara Mangravite, PhD | Sage Bionetworks | Open science data repository | Intellectual contribution to ADMC |
| Jan Krumsiek, PhD | Weill Cornell Medicine | Bioinformatics | Intellectual contribution to ADMC |
| John Newman, PhD | USDA ARS | Metabolomics, bioinformatics | Intellectual contribution to ADMC |
| Bin Zhang, PhD | Icahn School of Medicine at Mount Sinia | Bioinformatics | Intellectual contribution to ADMC |
| Herman Moreno, MD | SUNY Downstate | Neurology, electrophysiology expert | Intellectual contribution to ADMC |
