Pfund C, House SC, Asquith P, Fleming MF, Buhr KA, Burnham EL, Eichenberger Gilmore JM, Huskins WC, McGee R, Schurr K, Shapiro ED, Spencer KC, Sorkness CA. Training Mentors of Clinical and Translational Research Scholars: A Randomized Controlled Trial. Acad Med. 2014; 89(5).

Supplemental Digital Figure 2. Comparison by group of change in mean self-assessed Mentoring Competency Assessment composite score overall and by gender and title. Mean change in the intervention ("I") and control ("C") groups and the point estimate and 95% confidence interval for the difference between groups ("Diff") are given from pre-test to post-test ("Pre to post change"). The interaction *P* value ("Int. *P*") tests whether the intervention effect differs across the indicated subgroups.

Pre to post change
