Consider TBI	1 (2.7)
Consider depression	0 (0)
Consider socioeconomic status	0 (0)
Ask about social support	0 (0)

Abbreviations: PTSD indicates post-traumatic stress disorder; TBI, traumatic brain injury.

<sup>a</sup>From an evaluation form for a faculty development workshop on veterans-centered care. The authors designed the workshop in fall 2013 to develop faculty teaching skills in the area of veteran-centered care as well as to improve health care delivery to veteran patients. The workshop is centered on scenes for the documentary *Where Soldiers Come From*.

<sup>b</sup>Responses are not mutually exclusive.
