

Table S1. Relevant baseline characteristics of the experimental mice					
Strain	Sex	Amount	Age	Weight	Microbiological status
C57BL/6J	Male	24	8-12w	22-28g	Specific pathogen free
DAT-Cre	Male	70	8-12w	22-28g	Specific pathogen free
Summary of the strain, sex, amount, age, weight, microbiological status of the experimental mice
