

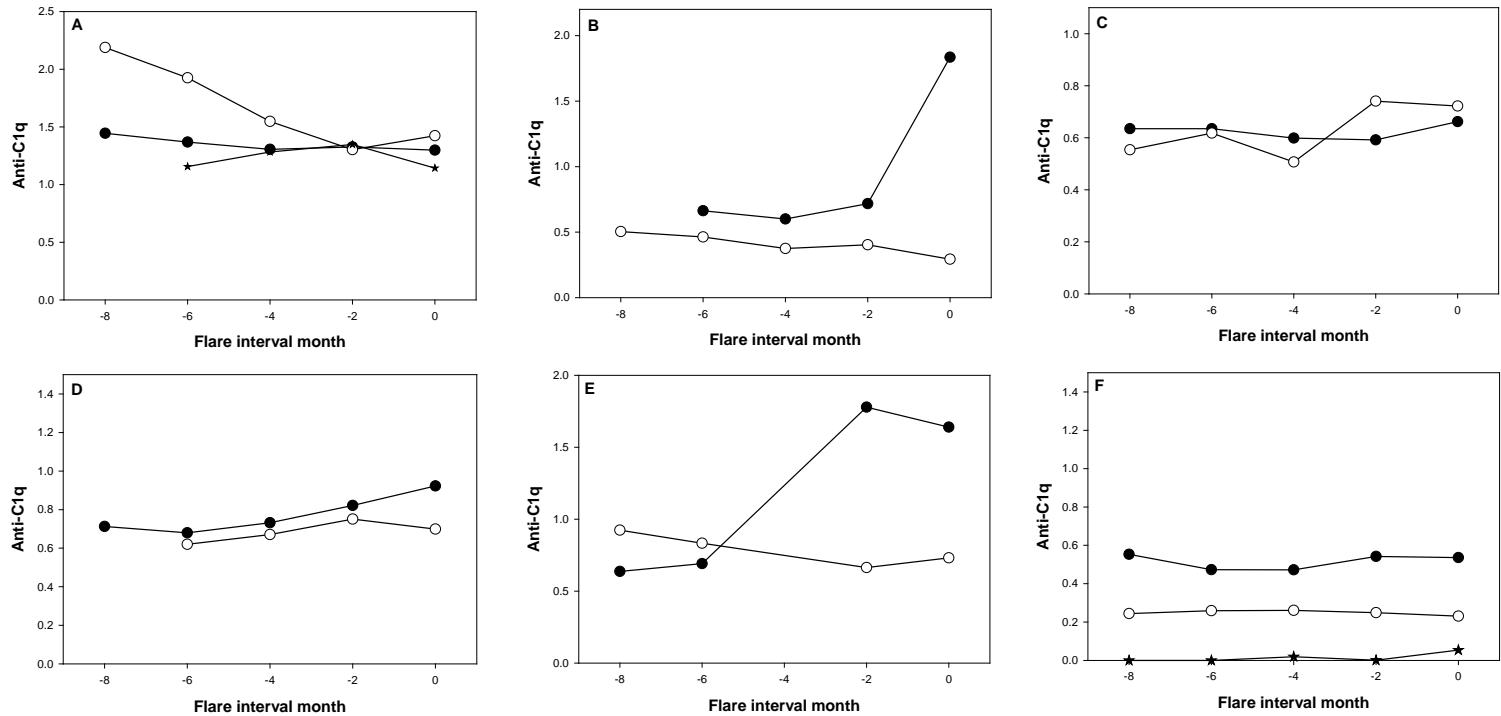

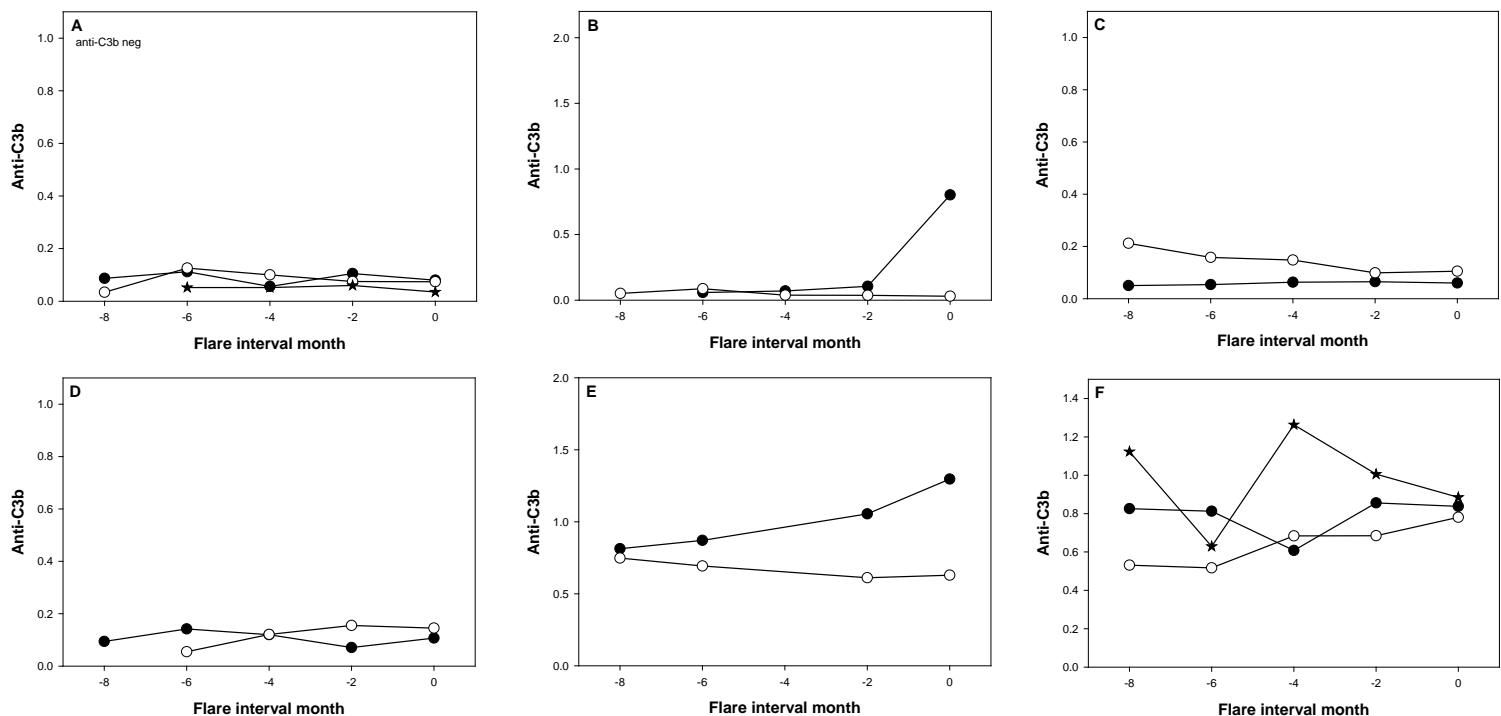

Figure 1a**Figure 1b**

Supplemental Figure 1. Anti-C1q IgG (Figure 1a) and anti-C3b IgG (Figure 1b) levels from the 6 patients (A-F) who contributed more than one flare to the longitudinal analysis. In each plot, the first flare interval is noted by the solid circle, the second flare is noted by an open circle, and the third flare (occurring in two patients) is noted by a star. Note that patient A was negative for anti-C3b.
