

SUPPLEMENTAL MATERIAL

Supplemental Table. Donor and recipient characteristics and outcomes for a subset of kidneys (from the OPO with no reports of ATN) that had available biopsy slides for re-read by a renal pathologist.

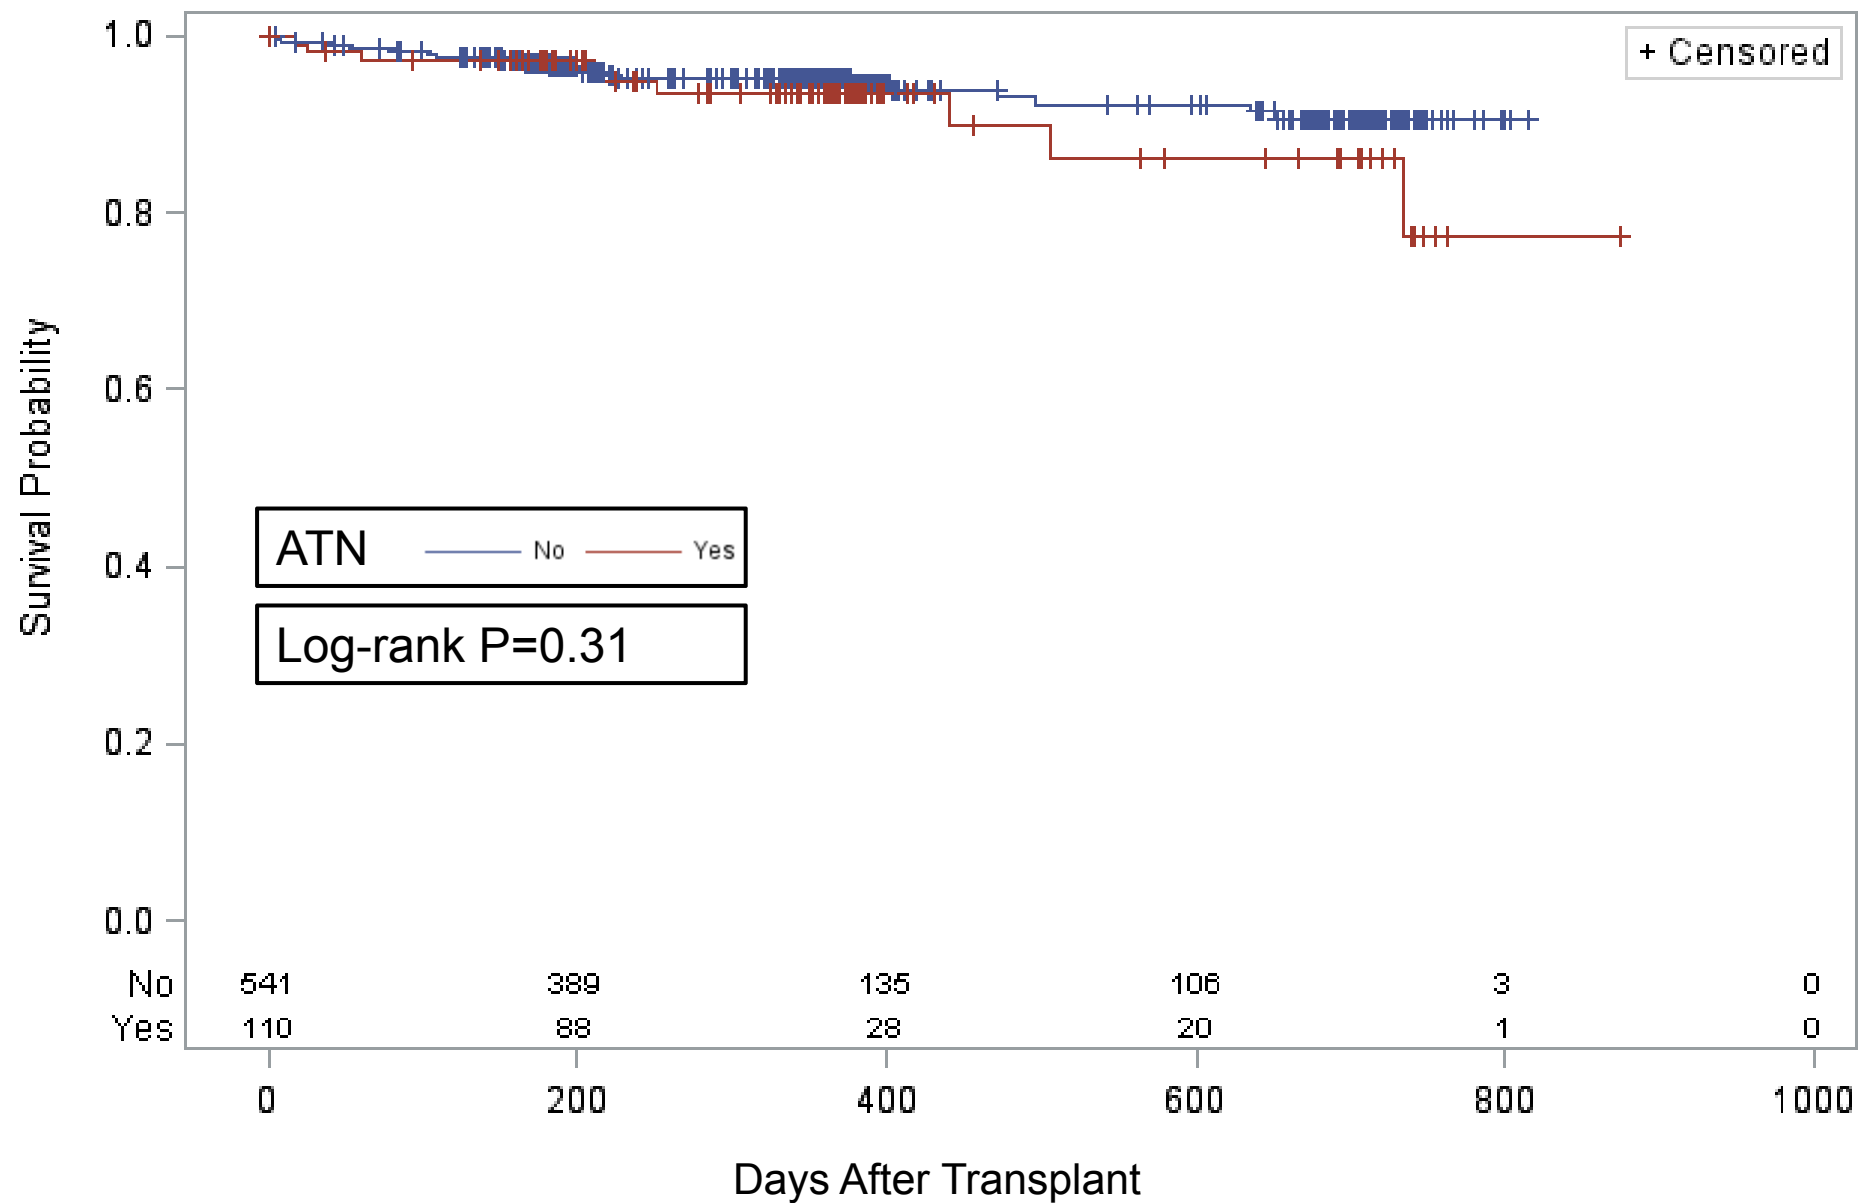

Age (yrs) ^a	Sex ^a	BMI ^a	Race ^a	DCD	ECD	Terminal Cr	Terminal UOP	KDPI	Biopsy re-read	DGF	ESRD cause	Dialysis duration (months)	HLA mis-matches	Graft failure ^b	Death	Follow-up ^c
19	F	21	White	Yes	No	0.3	173	28	No ATN							
66	M	36	White							No	Graft failure	1	3	No	No	258
51	M	23	Black	No	Yes	0.8	56	78	No ATN							
65	M	33	Black							No	DM	51	6	No	No	364
26	F	34	White	Yes	No	0.7	108	44	No ATN	Yes	HTN	58	6	No	No	497
40	M	33	Black													
28	M	31	White	No	No	7.7	62	43	ATN (mild, focal)							
59	M	32	Black							No	GN	27	3	No	No	275
64	F	27	White	No	Yes	0.5	347	81	ATN (mild, focal)							
69	F	31	Black							Yes	DM	23	4	No	Yes	471
40	M	28	Hispanic	Yes	No	0.6	120	57	ATN (mild, focal)							
61	M	30	Black							No	GN	88	5	No	No	362
60	F	25	White	No	Yes	0.9	108	78	ATN (mild, focal)							
67	F	21	Black							No	DM	8	6	No	No	353
48	M	30	White	No	No	1.1	56	59	ATN (mild, diffuse)							
59	F	32	Black							Yes	HTN	96	5	No	No	280
45	F	27	White	Yes	No	1.6	24	83	ATN (mild, diffuse)							
64	M	32	Black							Yes	DM	54	3	No	No	215

BMI, body mass index (kg/m²); DCD, donation after cardiac death; ECD, expanded-criteria donor; Cr, creatinine (mg/dL); UOP, urine output (mL/hr); KDPI, kidney donor profile index (%); DGF, delayed graft function; ESRD, end-stage renal disease; HLA, human leukocyte antigen; ATN, acute tubular necrosis; DM, diabetes; HTN, hypertension; GN, glomerulonephritis

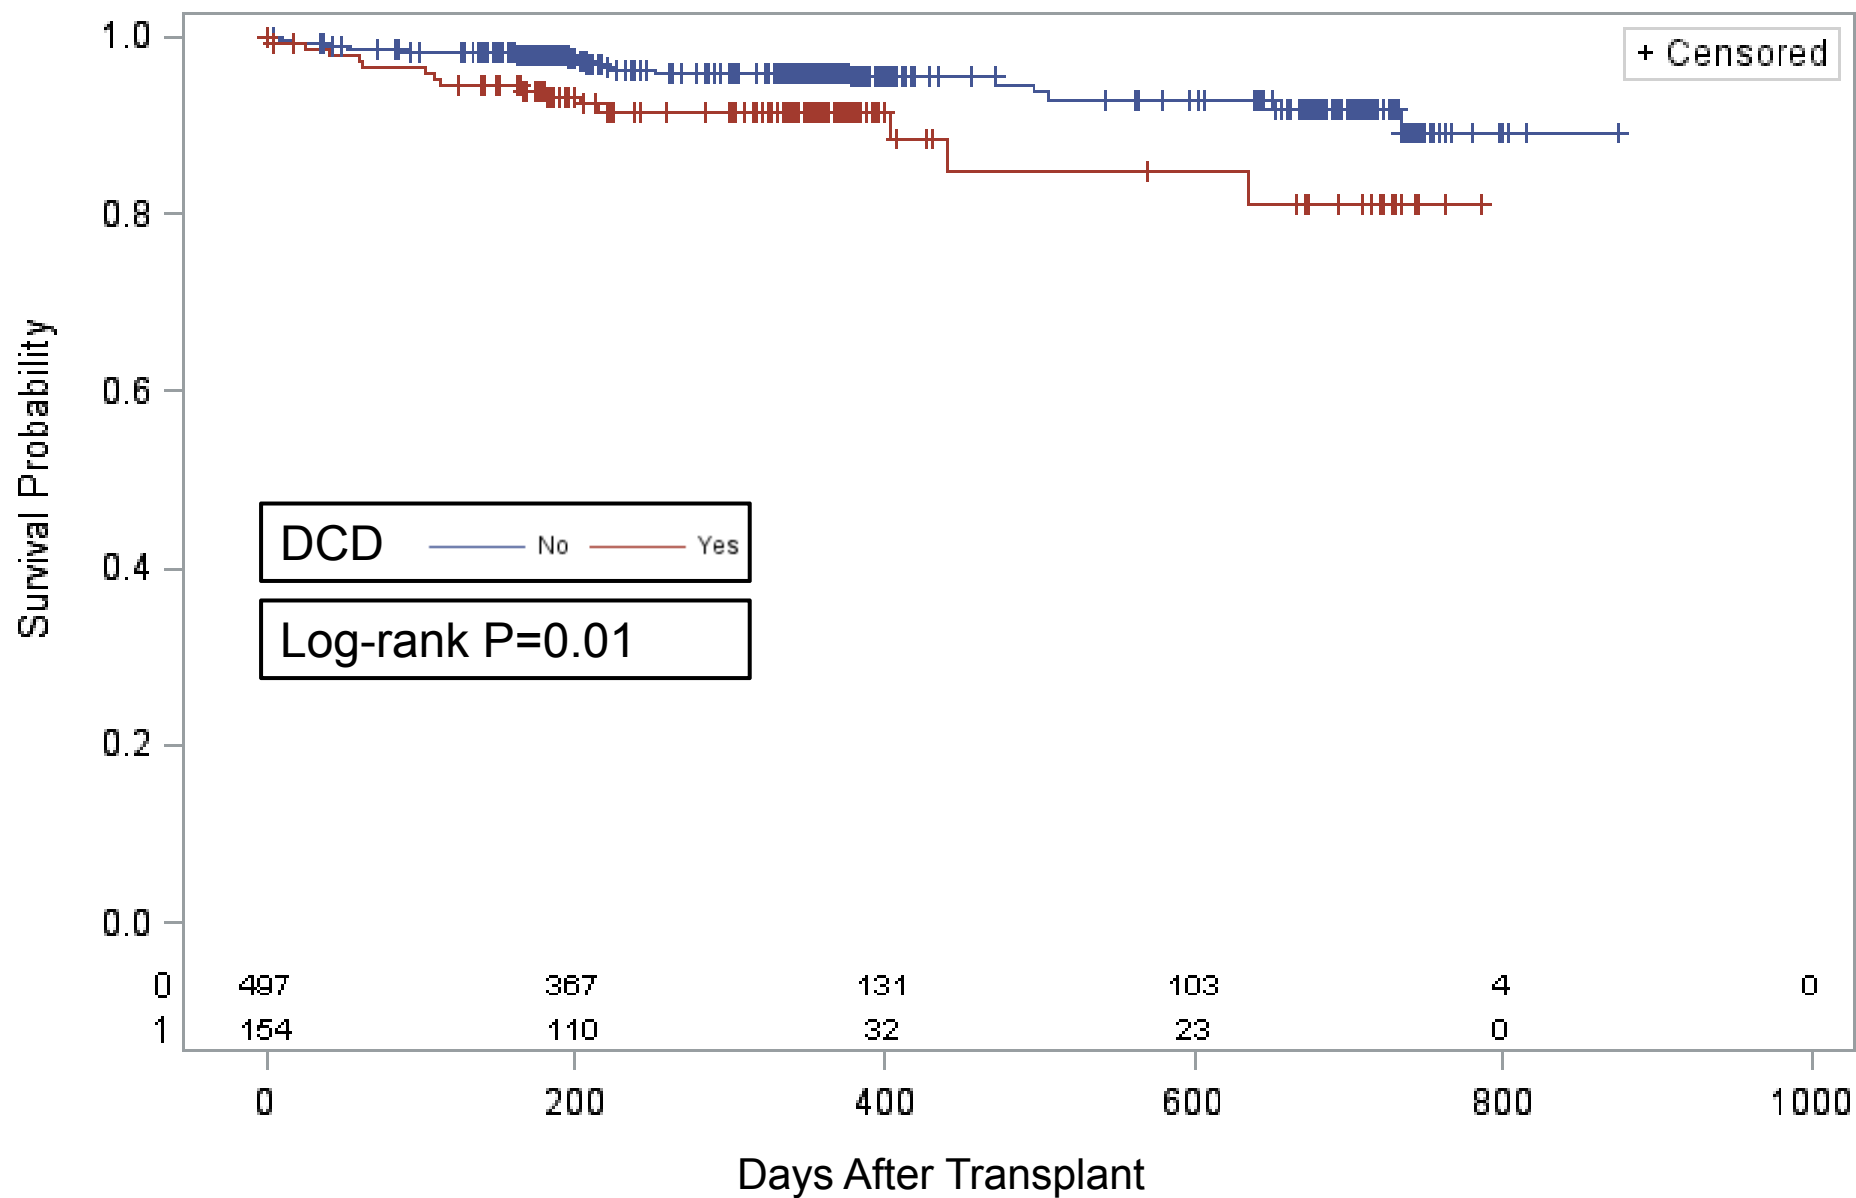

^a Donor characteristic displayed above the recipient characteristic.

^b Death-censored graft failure.

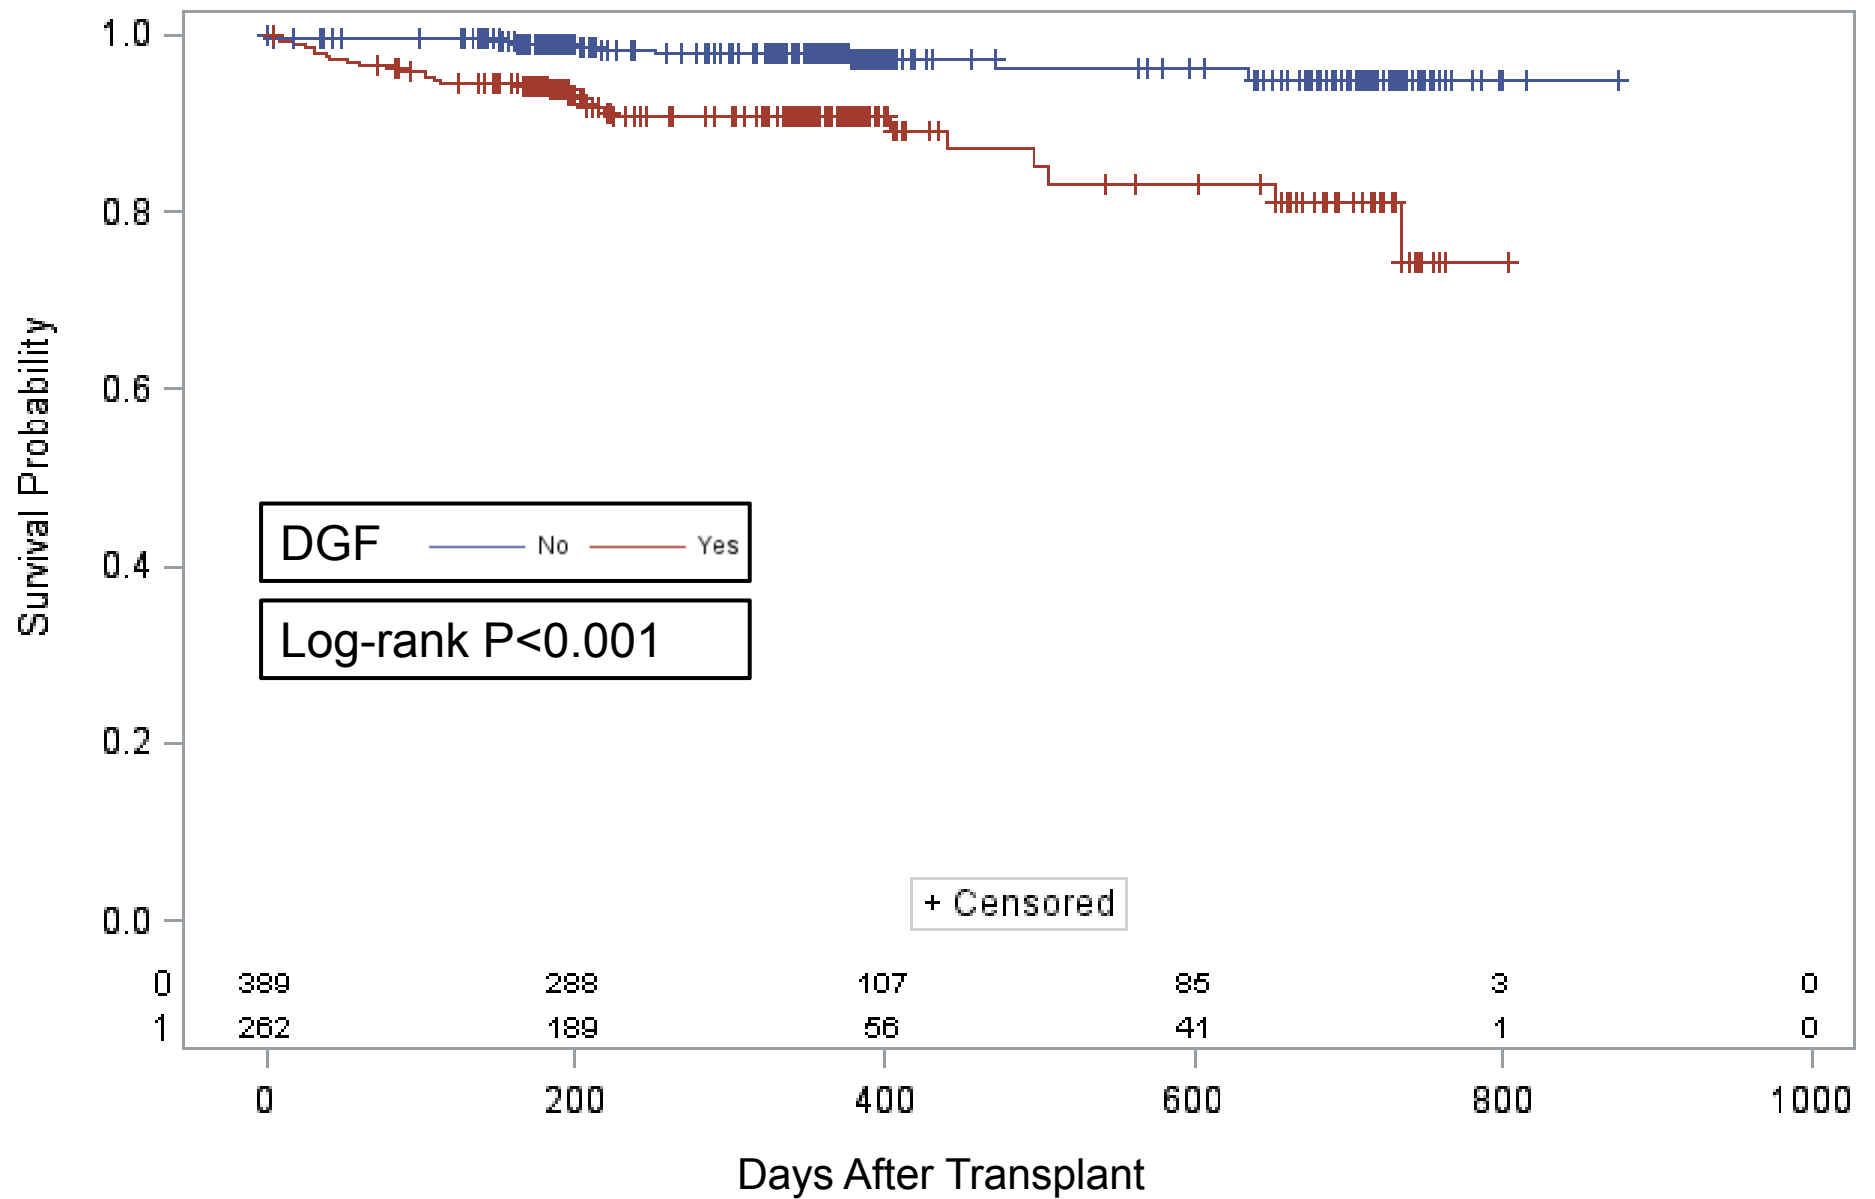

^c Days from transplant to last available follow-up report or death.

Supplemental Figure 1. Kaplan-Meier survival curve for death-censored graft failure by pre-implant kidney biopsy-reported acute tubular necrosis (ATN)

Supplemental Figure 2. Kaplan-Meier survival curve for death-censored graft failure by donation after cardiac death (DCD) kidney status

Supplemental Figure 3. Kaplan-Meier survival curve for death-censored graft failure by recipient delayed graft function (DGF) status
