TITLE: A novel method of intra-ovarian instillation of platelet rich plasma to improve reproductive outcome in young Indian women with Diminished Ovarian Reserve.

Authors: Parikh et al.

Supplementary Table 1: Platelet, WBC, and RBC counts before and after PRP preparation in 10 random samples

Measure	**Time**	**Platelet count ($x10^3$ cells/µl)**	**WBC count ($x10^3$ cells/µl)**	**RBC count ($x10^6$ cells/µl)**
Mean±SD	Pre-PRP	290.22±39.64	7.29±1.16	4.55±0.28
	Post-PRP	2912.00±440.94	1.06±0.75	0.16±0.04
Range	Pre-PRP	239 to 337	5.47 to 8.98	4.26 to 5.01
	Post-PRP	2097 to 3427	0.00 to 1.95	0.11 to 0.25

Note: WBC: white blood corpuscles; RBC: red blood cells; PRP: platelet rich plasma
