

Question Text	Author Response	Custom Submission Question ID
Please complete the following questions in accordance with the International Committee of Medical Journal Editors' recommendations on data sharing in clinical trials (guidelines and examples are available here) Will individual participant data be available (including data dictionaries)?	Yes	58
What data in particular will be shared? (Examples include all individual participant data after deidentification, only participant data that underlies the results, or not available.)	Individual participant data that underlie the results reported in this article, after deidentification (text, tables, figures, and appendices).	59
What other documents will be available?	Study protocol	60
When will data be available (start and end dates)?	Beginning 9 months and ending 36 months following article publication	61
With whom? (Examples include anyone who wishes to access the data, researchers who provide a proposal, or not applicable.)	Investigators who's proposed use of the data has been approved by and independent review committee ("learned intermediary") identified for this purpose.	62
For what types of analyses?	For individual participant data meta-analysis.	63
By what mechanism will data be made available?	Proposal may be submitted up to 36 months following article publication. After 36 months the data will be available in our University's data warehouse but without investigator support other than deposited metadata. Information regarding submitting proposals and accessing data may be found by contact the authors directly.	64
