

Appendix A: iKNOW PD Survey 1 Assessment of Facilitators and Barriers to Outcome Measurement in People with PD

Integrating Knowledge Translation Tools for Outcome Measurement in PD (iKNOW-PD)

Instructions: Clinical researchers from University of Michigan-Flint and Wayne State University are partnering with Genesys Integrated Physical Therapy in order to continue to improve the rehabilitation services provided to patients with Parkinson's Disease. We are interested in further understanding what your attitudes and behaviors are regarding using standardized assessments in people with Parkinson's Disease (PD). Please take 10 minutes to complete this anonymous survey.

Read each statement and rate from strongly agree to strongly disagree.

	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
I have sufficient knowledge to use standardized assessments in patients with PD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I would like to know more about the use of standardized assessments in patients with PD before I decide to use them.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am free to make my own clinical decision when using standardized assessments in patients with PD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In general, I resist using standardized assessments in patients with PD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Using standardized assessments improves the quality of patient care in patients with PD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The use of standardized assessments motivates my patients with PD.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
I use standardized assessments to educate the patient/family.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I feel confident I choose the best standardized assessment for patient care.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
There are so many different assessment; I do not know which ones to use.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I find using standardized assessment a problem because I have had no training in using them.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Patients value the use of standardized assessments to gain insight into their functioning.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The kinds of patients I treat are unsuitable for the use of standardized assessments.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
Co-workers (PTs) support the use of standardized assessments.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My supervisor supports the use of standardized assessments.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The use of standardized assessments is part of the organizational goals of our practice.

☐ ☐ ☐ ☐ ☐

Standardized assessments are valuable when speaking about a patient to the healthcare team.

☐ ☐ ☐ ☐ ☐

I find using standardized assessments a problem because I do not have (physical) space in my practice.

☐ ☐ ☐ ☐ ☐

There are enough standardized assessment tools to use in my daily clinical practice.

☐ ☐ ☐ ☐ ☐

Using standardized assessments requires additional financial compensation.

☐ ☐ ☐ ☐ ☐

Using standardized assessments might strengthen negotiations with insurers.

☐ ☐ ☐ ☐ ☐

I have access to standardized measurements.

☐ ☐ ☐ ☐ ☐

What factors may increase the use of outcome measures in the patients you see with PD?

What outcome measures in PD do you want to use more frequently?

What barriers may exist to prevent you from using outcome measures in the patients you see with PD?
