

Supplemental material Table of Contents

Figure S1: Density plot for primary + secondary causes leading to graft failure	2
Figure S2: Co-occurrence of ABMR or TCMR with other causes (primary or secondary) per transplant	3
Figure S3: Percentage of primary causes in non-adherent patients progressing to graft failure	4
Table S1: Inter-rater Reliability	5
Figure S4: Comparison of causes assigned to a subset of 150 graft failures by external raters and the original assignment	6

Figure S1: Density plot for primary + secondary causes leading to graft failure.

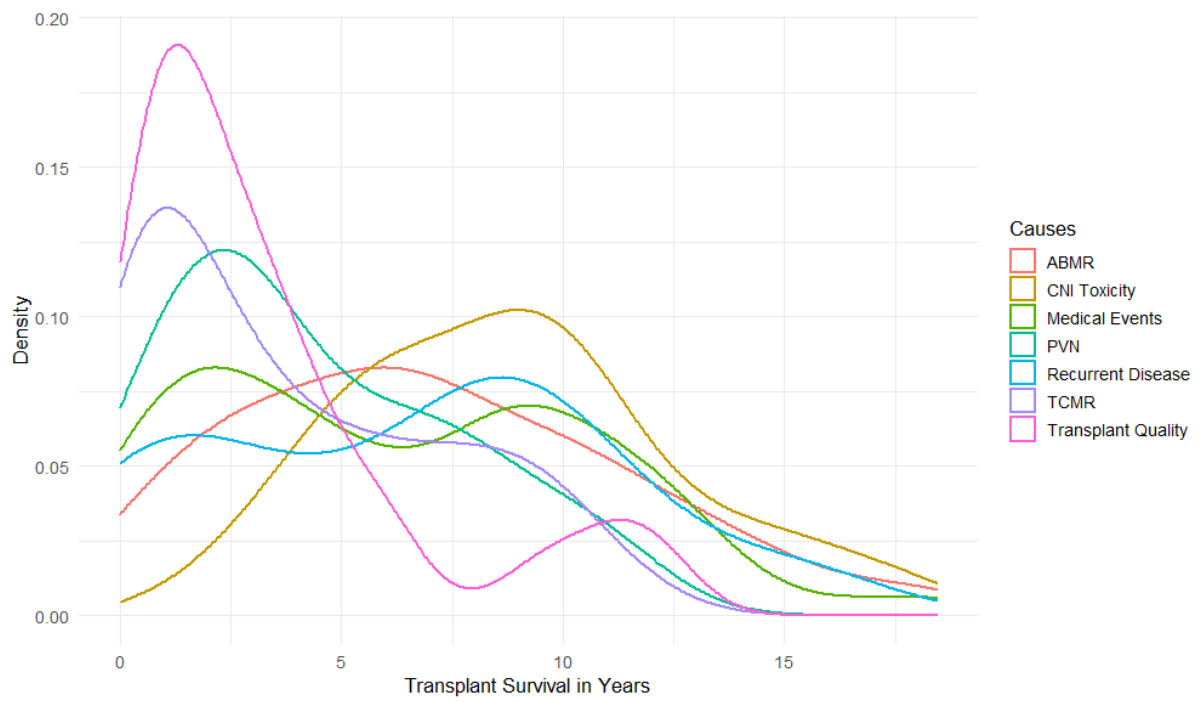

Figure S2: Co-occurrence of ABMR or TCMR with other causes (primary or secondary) per transplant.

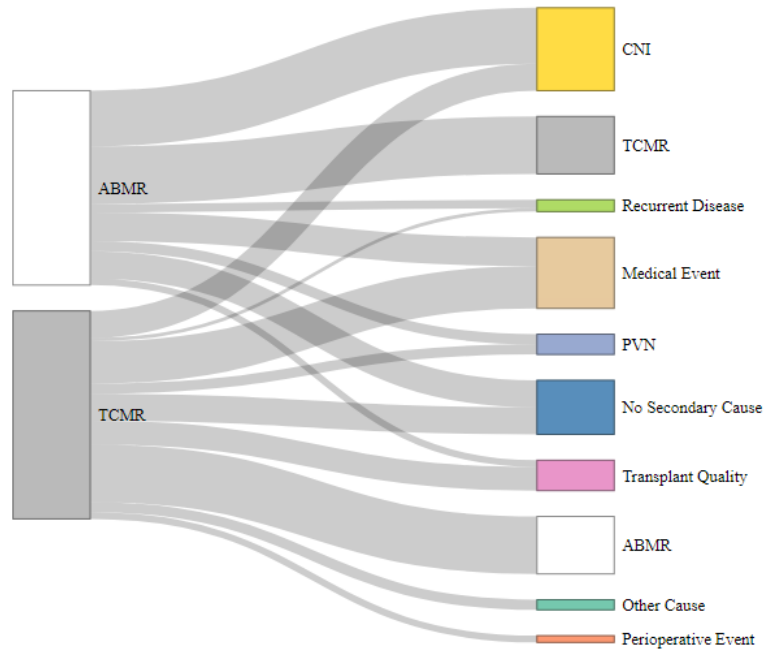

Figure S3: Percentage of primary causes in non-adherent patients progressing to graft failure.

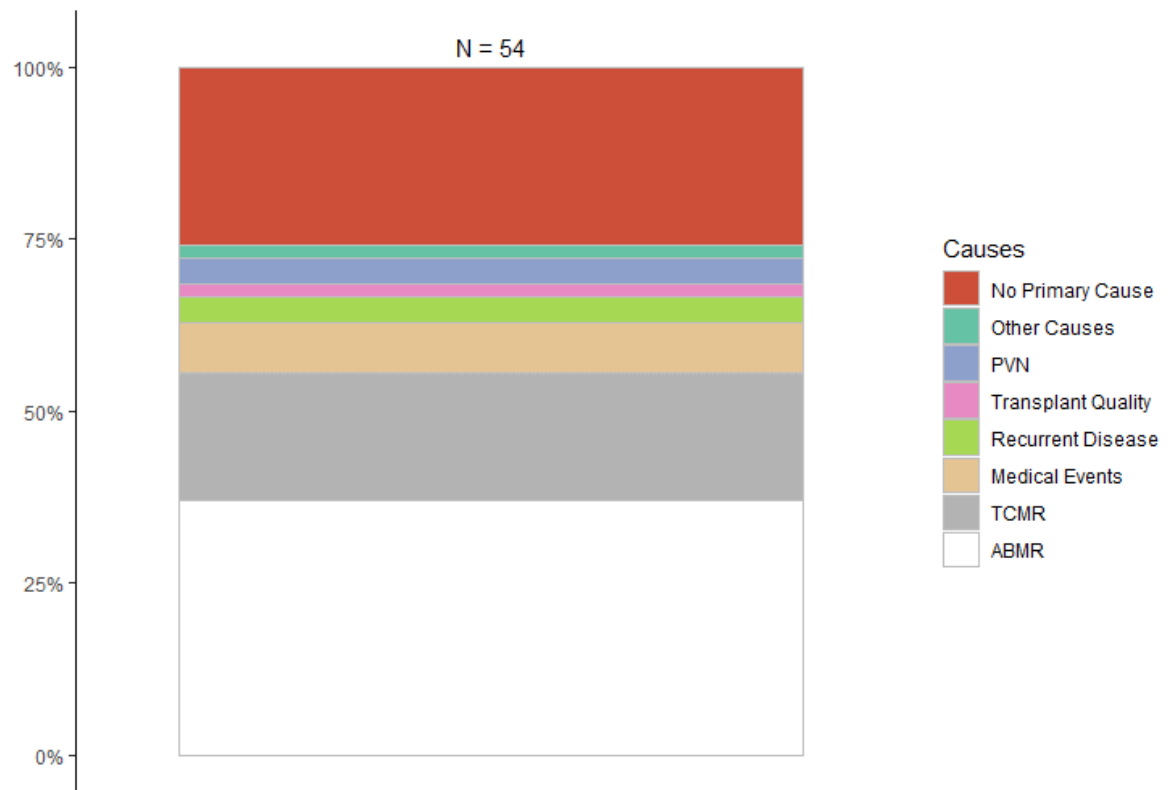

Table S1: Inter-rater Reliability.

	Cohen's Kappa (Primary Causes)	% Agree (Primary Causes)	Iota Coefficient (All Causes)
Rater 1	0.699	76%	0.795
Rater 2	0.594	68%	0.899
Rater 3	0.524	60%	0.744
Rater 4	0.646	72%	0.712
Rater 5	0.704	76%	0.746
Rater 6	0.764	80%	0.643

Figure S4: Comparison of causes assigned to a subset of 150 graft failures by independent raters and the original assignment.
