

Table. Factor Analysis of the Altered Student Study Environment Tool (ASSET)

	1	2	3	Communalities h^2	Mean \pm SD
<i>Attending clinical placement</i> ($\alpha = 0.920$)					
I am worried about going into the clinical environment during this pandemic	0.93	0.14	0.14	0.89	3.20 \pm 1.28
I am fearful being in practice during this pandemic	0.92	0.14	0.18	0.89	3.04 \pm 1.27
I am worried that I may get COVID-19 if I attend clinical placement	0.85	0.28	0.11	0.81	3.35 \pm 1.25
<i>Completion of clinical placement</i> ($\alpha = 0.771$)					
I am worried that my clinical placement will be cancelled or postponed	0.05	0.80	0.03	0.64	3.91 \pm 1.18
Not being able to attend clinical placement will prevent me from progressing in my degree	0.16	0.78	0.19	0.66	4.16 \pm 1.02
I am worried that I may not be able to get to my clinical placement	0.20	0.71	0.00	0.55	3.57 \pm 1.24
Not being able to attend clinical placement will result in me failing my studies	0.20	0.68	0.27	0.57	3.82 \pm 1.17
<i>Grade attainment</i> ($\alpha = 0.712$)					
COVID-19 will have a negative impact on my grades for the semester	0.03	0.19	0.78	0.65	3.86 \pm 1.06
My ability to submit an assignment on time will be affected due to consequences of COVID-19 such as caring for a family member	0.23	0.07	0.72	0.58	3.41 \pm 1.37
The COVID-19 pandemic will impact on my ability to complete my degree	0.06	0.37	0.68	0.59	3.84 \pm 0.97
I am worried because I don't have access to the Internet to study online	0.11	0.07	0.66	0.45	2.10 \pm 1.04

Unique factor loadings > 0.50 are in bold.
