

Appendix Table A2. A composite water contact behavior scoring system based on the number of exposures during lens/storage case handling (minimum:0-maximum:8), water contact behavior categories: good = ≤ 1 , poor = >1 .

Task	Behavior	Score
Swimming while wearing lenses	Have never swum in lenses	0
	Swam with the use of swimming goggles	1
	Swam without the use of swimming goggles	2
Showering while wearing lenses	No	0
	Yes	1
Use of wet hands to handle lenses	No	0
	Yes	1
Use of tap water in the hygiene of lens/storage case	Uses disinfecting solution to rinse lenses and storage case + stores lenses in a disinfecting solution	0
	Stores lenses in disinfecting solution and uses tap water to rinse lens storage case	1
	Stores lenses in disinfecting solution and uses tap water to rinse lenses	2
	Stores lenses in disinfecting solution and uses tap water to rinse lenses AND storage case	3
	Stores lenses in tap water	4
Maximum total score		8
